# MORE ABOUT TAIWAN

## HISTORY

The name "Taiwan", meaning "terraced bay", was first used in 1430 by Admiral Cheng Ho of the Ming court. In the 16th century, the Portuguese named the island "Ilha Formosa" meaning "Beautiful Island". The name Formosa was used until the end of WWII.

Situated between northern and southern Asia, Taiwan has long played a crucial role in trade and politics. Taiwan's location brought frequent invasions, but also provided the conditions needed for a modern, prosperous and democratic country.

## CLIMATE

In subtropical, northern Taiwan, the temperature during the cool, mild winters averages 18°C / 64°F. The average temperature rises to 31°C / 88°F during the hot, humid summers. Southern Taiwan has a tropical, marine climate with generally warm and relatively dry weather.

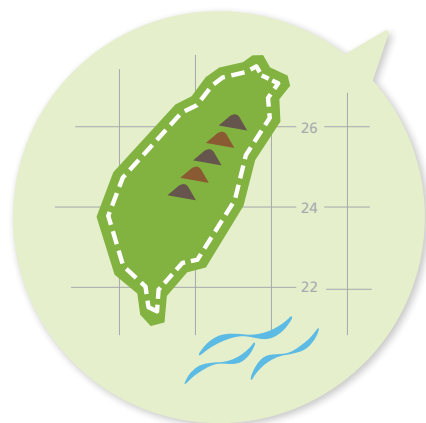

In the mountains, temperate conditions prevail. Snow may accumulate on some of the highest peaks, such as Yu Shan and Ho-Huan Shan. Rain may fall at any time, but the greatest amount usually falls from April to August. Typhoon season is from May to September.

## GEOGRAPHY

Taiwan lies along the western edge of the Pacific Ocean, 193 km (120 miles) off the southeastern coast of mainland China. Taiwan has a land area of about 36,000 square km (14,400 square miles) and is nearly bisected by the Tropic of Cancer. The island is shaped somewhat like a sweet potato.

Taiwan has broad plains, rolling hills, and precipitous mountains that form the spine of the island. There are six peaks over 3,500m - the highest is Yu Shan at 3,952m - and more than 200 peaks over 3,000m. Swift rivers have carved steep gorges through the mountains. Taroko Gorge, with vertical rock walls hundreds of meters high, is a wonder of nature. Geothermal activity has produced many hot springs in mountains.

Due to the abundant rainfall and generally warm temperatures, vegetation grows rampantly in Taiwan, from lowland agricultural crops to all manner of plant life cloaking the hills and mountains. Due to its unique climate and geography, the flora and fauna of Taiwan are tremendously diverse, and many species are endemic to the island.

## CULTURE

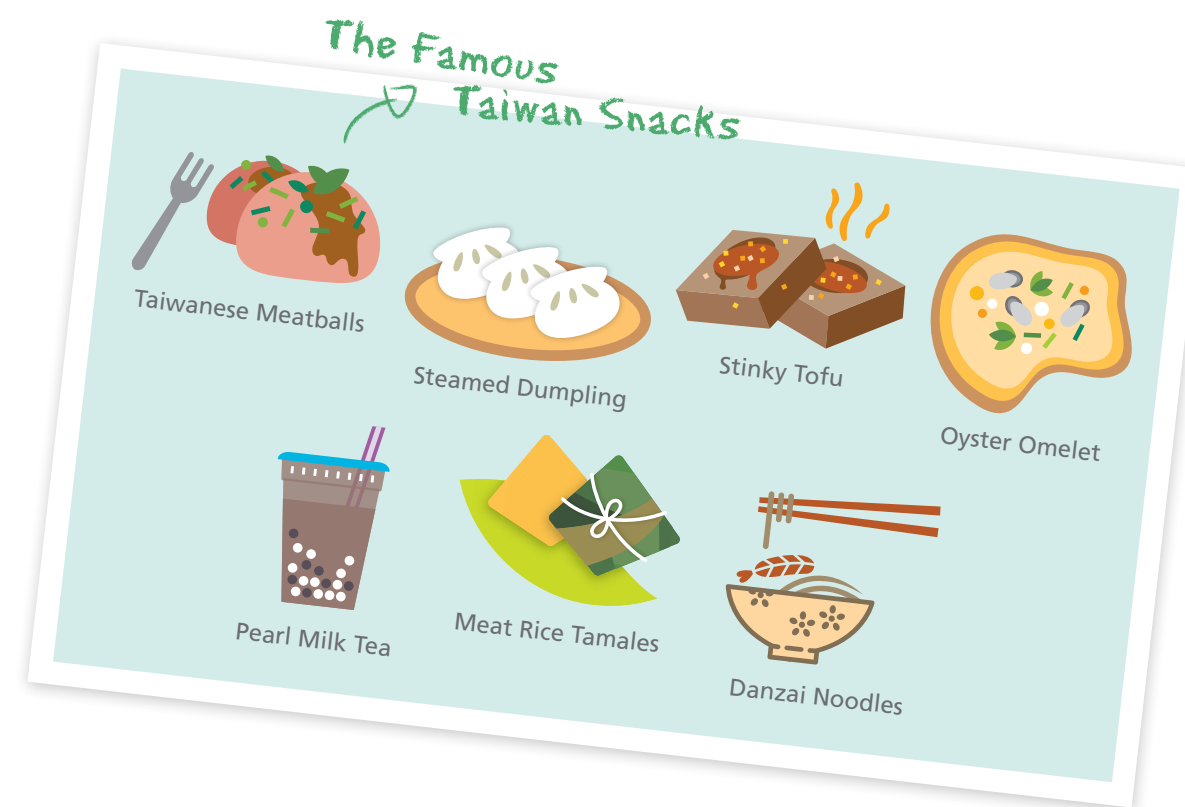

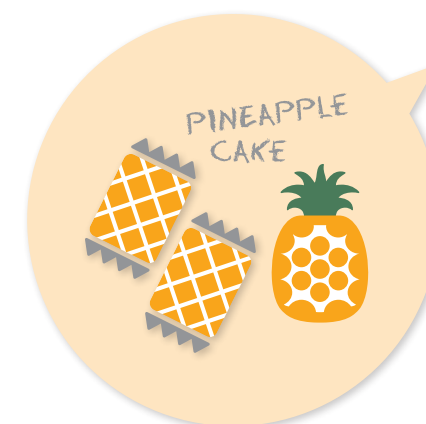

The culture of Taiwan is a blend of modern and traditional, national and international, unique and universal. Due to Taiwan's complex political history, the influences of indigenous culture, Confucianism, Japan, and Western civilization all can be seen at the same time.

The Japanese occupation of Taiwan from 1895 to 1945 influenced language, culture, and architecture. Visitors can still find a Japanese-style mansion and hear old Japanese songs emanating from nearby taverns.

Taiwan's aboriginal culture is unique and has started to flourish since the Ami chant "Jubilant Drinking Song" was sampled in a song to promote the 1996 Olympics. However, the dominant culture in Taiwan is still Chinese. Immigrants from mainland China, especially those who arrived in 1949, after civil war, brought Confucianism and Chinese culture to Taiwan. The National Palace Museum has an outstanding collection of 650,000 pieces of ancient Chinese artifacts brought from the Forbidden City, making it a major attraction for visitors. Visitors also will see ornate temples and traditional Chinese characters.

## CUISINE

In Taiwan, where it seems the people live to eat, it is said that there is a snack shop every three steps and a restaurant every five. Foods and dishes from around the world are available in Taiwan. However, Taiwan's native cuisine, which has gained worldwide attention, is unforgettable - try it just once and you will remember it forever. Memorable dishes include: Pearl Milk Tea, Danzai Noodles, Shrimp Pork Soup, Oyster Omelet, Meat Rice Tamales, Stinky Tofu, Taiwanese Meatballs, Coffin Sandwich, Veggie and Meat Wrap, Oyster Vermicelli, Steamed Sandwich, and Crushed Ice Dessert.

# LIVING IN TAIWAN

## 1. Accommodations

Some Chinese learning centers provide on-campus dormitories. Each dormitory houses only men or only women. Typically, 4 to 6 students share a room. The number of beds is limited.

If dormitories are unavailable or you prefer a different living arrangement, off-campus apartments, including studios and flats, are available. Most Chinese learning centers provide information about local rentals on the internet. Depending on the accommodation's type, quality and location, rent ranges from NT\$3,000 to 9000 per month. For further information please see the Tsuei Ma-Ma Foundation website.

### Note

Tsuei Ma-Ma Foundation website  
[www.tmm.org.tw/English/index.html](http://www.tmm.org.tw/English/index.html)

## 2. Services

### INSURANCE

Foreigners with an Alien Resident Certificate (ARC) who have resided in Taiwan for four months must enroll in the National Health Insurance (NHI) program at a local administrative office. Before they are eligible for the NHI program, students can purchase their own insurance or participate in a temporary health insurance program offered by the foreign students' office at their educational institution.

Foreigners, who have lost their residence status because they no longer hold a valid ARC or have left Taiwan permanently, will also lose their right to participate in the NHI program. They must withdraw their subscription to the NHI program through their group insurance applicant (their employers or local administration offices) and then return their NHI card to the group insurance applicant and pay the premiums in full before leaving Taiwan.

When traveling overseas for a short period of time, either on business or on vacation, and then returning to Taiwan with a valid ARC, foreigners must remain enrolled in the NHI program.

### BANK ACCOUNTS

Most banks offer foreign currency exchange and bank services in NT dollars. Foreign students can open bank accounts with their passports and ARC cards. Individual who wants to open an account without an ARC card needs to get a universal identification number at the local police office.

### POSTAGE

Chunghwa Post, the postal service of Taiwan, provides international and domestic mail services to the public. There are over a thousand branches, distributed all over the island, providing regular and express postal service. Foreign students can apply for a postal box at the nearest branch.

In addition, most convenience stores serve as pick up locations for international and domestic express services. Students who receive Taiwan Scholarship need to open an account at a post office of Chunghwa Post.

## 3. Work

International students who have attended school in Taiwan or a language program for one year, can work in Taiwan when one of the following applies:

- Events of a serious nature have affected their financial ability to support themselves or continue their education, and the student can provide evidence of such circumstances.
- An academic research institution at the student's school requires a foreign student to provide assistance in its work.
- The student needs to take part in an off-campus internship related to his or her field of study

### Further information about National Health Insurance (NHI)

It's a health insurance for all people in Taiwan since 1995. The main goals are to improve patients' access to health care by easing their financial burden and to make sure that no one would be forced into bankruptcy by a serious illness.  
[www.nhi.gov.tw/english](http://www.nhi.gov.tw/english)

## Transportation

### By Train

The railway network along the coastline is another economic option for traveling around Taiwan. There are four classes of passenger seats: Tze-chiang, Chu-kuang, Fu-hsing and economy. Traveling by train is recommended on public holidays because it can avoid the hustle and bustle of the long distance highway bus service. Advanced ticket reservations are recommended.

### By Air

There are six domestic airlines providing services between major cities such as Taipei, Taichung, Tainan, Kaohsiung and Hualien. Prior reservations are always required.

### By Taiwan High Speed Rail (THSR)

If you would like to save time, THSR is another choice. While traveling from Taipei to Kaohsiung takes 5 hours by train and 6 hours by car, the THSR takes only 1.5 hours. Advanced reservations are recommended.

### By Motorcycle/ Scooter & Bicycle

Motorcycles and scooters are very popular means of transportation. Most universities provide motorcycle/scooter parking around campus for students. Bicycles are widely used within campuses. Bicycle racks can be found throughout campuses.

### By Highway Bus

Long distance highway bus services provided by private transportation companies are very popular. They have an extensive network and a frequent service schedule. Tickets are usually competitively priced and some bus companies even provide 24 hour service.

### By Passenger Car

In Taiwan, cars are driven on the right. Students with international driver licenses may drive in Taiwan. However, driving is not recommended for those who are unfamiliar with the unique road and traffic conditions in Taiwan. Traffic is heavy and car drivers must watch out for slow-moving pedestrians and bicyclists, fast-moving motorcycles and scooters, as well as other cars, buses and trucks. Drivers have to be extra cautious. International or foreign driver license holders can apply for ROC driver licenses at the local Motor Vehicles Office.

### By Metro/Subway

In Taipei and Kaohsiung, the metro system (MRT) provides convenient and comfortable transportation. There are ten major routes in Taipei and two major routes in Kaohsiung, covering different parts of the two cities and extend to some parts of Taipei County. Metro fares range from NT\$20 to NT\$65 (USD 0.6-2).

### By Bus & Taxi

Each major city has its own bus system. Fares are inexpensive and service is frequent. Taxi fares start at NT\$70 (USD 2.3) and increase with the time and distance traveled. It is a good idea to have the name of your hotel or address written in Chinese when you travel by taxi.

HOW CONVENIENT!

# TEST OF CHINESE AS A FOREIGN LANGUAGE (TOCFL)

## Organization Introduction

The Steering Committee for the Test Of Proficiency-Huayu (SC-TOP) was established in November 2005 under the direction of the Ministry of Education of R.O.C. Originally "Chinese Language Testing Center" and renamed in January 2007, the Committee aims to develop and promote an effective Chinese assessment system, mainly the Test of Chinese as a Foreign Language (TOCFL), for Chinese learners worldwide to assess their Chinese proficiency.

Test takers can choose the test levels best suited to them based on their Chinese language proficiency and learning background.

Coming to Taiwan to continue studying Mandarin has been one of the best choices of my life. It comes down to three simple things: It's an incredibly comfortable place to live, the people are friendly and helpful to an unbelievable extent, and the cuisine is beyond delicious. From my very first few days here in Taipei I had already fallen in love with Taiwan. It's a clean, convenient, safe, and a relatively inexpensive place to live. Not to mention the classes at Taiwan Normal University's Mandarin Training Center, which are fun and educational, in addition to providing a variety of options for all levels of Mandarin learners.

## 2. My impressions about Taiwan

Language Center

Division of Chinese Language, Language Center, National University of Kaohsiung

Course Type

Elementary Chinese

Taiwan welcomed me with heavy rain but nevertheless it soon cheapened my heart. There are so many differences to my home country Austria. It is more than 10000km away; however the friendly and helpful people, the delicious food, the mega cities and the scenic landscape let me feel like home. Before I came to Taiwan, I was just able to say "你" and by the time my Chinese is improving, and I am able to make some small-talk and even order a meal. It is also to get the understanding for the Taiwan culture and lifestyle. The new friendships and the new experiences will make my stay unforgettable.

## 3. Study Chinese in Beautiful Taiwan

Language Center

Center for Language studies, Tzu Chi University

Course Type

General Course

The Center for language studies, Tzu Chi University is centered between Taiwan's central mountain range and the Pacific Ocean. It is an ideal environment to study Chinese language and culture. Studying here is very different from big cities. People are more interested in your journey and not your destination. The people are friendly and not many people speak English (a great advantage in learning Chinese) The scenery and air quality is amazing with lots of great places to hike. Every semester the centre organizes different cultural activities for the students which are very informative. Tzu Chi also offers plenty cultural extramural activities.

## 4. Favorable atmosphere

Language Center

Chinese Language Center, Soochow University

Mandarin is a difficult language to learn. Especially for people from western countries, who are not used to write characters, nor to speak with proper tones. Being strongly motivated to learn may appear too little to make any progress. Staying in Taiwan for studying language is a good idea to overcome the difficulties. You can easily make friends with local people. They are friendly and helpful. They are interested in your country and want to show you what the best in Taiwan. When you ask people the way, they will walk you the place you want to get, teach how to pronounce correctly the name of the place and invite to their hometown for dinner and sightseeing. Well that is all about a good atmosphere you feel here. In these conditions learning language is more like a pleasure than a hard work.

## 5. Living a dream

Language Center

Chinese Language Center, Southern Taiwan University

I've been living in Taiwan for almost 2 years. First, I lived in Taipei for 8 months, where I started to study Chinese, at the beginning I thought this would be a part of my professional preparation, however, this became my passion and one of my life goals. Then, I moved south to Tainan, where I'm currently studying master and studying Chinese at the same time, I thought that moving here would help me to understand more the Taiwanese culture, and I was right!. Meeting really kind people and making new friends using the language I love together with the country I love the most became the best experience of my life so far. Learning Chinese for me is one of the hardest and most beautiful lessons life has taught me.

## 6. My experience on learning and teaching

Language Center

Chinese Language Education Center, National Taipei University of Education

I come to Taiwan to teach English and to also learn Chinese. I'm an ABC who has parents from Taiwan and I grew up only being able to speak rudimentary Chinese. Learning Chinese has definitely given me a higher life satisfaction experience. Being able to better communicate with my relatives is being realized (slowly). A deeper understanding in the language has also let me become a more effective teacher, also understanding the probable reasons for student's mistakes. Taiwan has provided me a very nice environment to immerse myself in these two important experiences while retaining some western comforts I sometimes miss.
