- International Students' Perspectives / Reasons

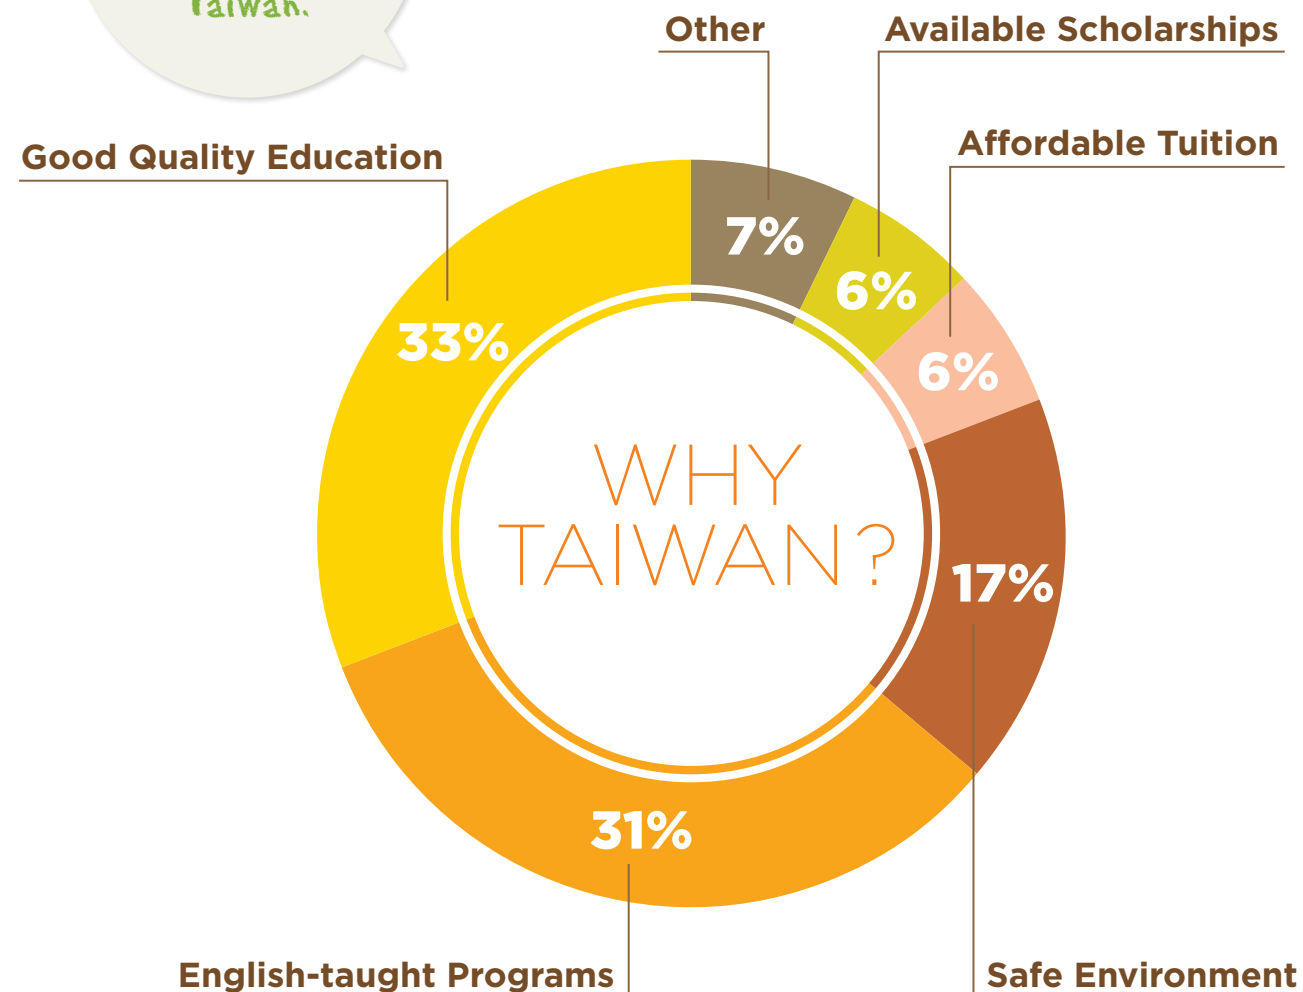

WHY TAIWAN?

Taiwan has an outstanding higher education system that provides opportunities for international students to study a wide variety of subjects, ranging from Chinese language and history to tropical agriculture and forestry, genetic engineering, business, semi-conductors and more. Chinese culture holds education and scholarship in high regard, and nowhere is this truer than in Taiwan. In Taiwan you will experience a vibrant, modern society rooted in one of world's most venerable cultures, and populated by some of the most friendly and hospitable people on the planet. A great education can lead to a great future. What are you waiting for? Come to Taiwan and fulfill your dreams. There are many reasons international students will find Taiwan an exciting and rewarding place to pursue their education.

We ask international educators from three major international educators' conferences (APAIE, NAFSA and EAIE) about the most determinant reason for foreign students to study in Taiwan:

Reasons for foreign students to study in Taiwan.

THE REASONS WHY I CHOSE TAIWAN

Let's listen to what international students say on "Why Taiwan?"

Taiwan has outstanding higher education system that provides opportunities for international students to study a wide variety of subjects. Taiwan's strong technology sector guarantees high quality education in my interesting field. In Taiwan I will experience a vibrant, modern society rooted in one of world's most venerable cultures, and populated by some of the most friendly and hospitable people on the planet. A great education can lead to a great future. There are many reasons for coming here and the most important that Taiwan has to encourage promising students from foreign countries to learn Mandarin and provides scholarship. Come to Taiwan and fulfill my dream.

National Chi Nan University

Taiwan is one of the beautiful countries with very good and clean environment. The scope for carrying out independent work is very high when compared to many other countries. Although the standard of education is very similar to that of my home country, the education system is what makes the difference and which pulled me to this country. The people are very welcoming, down to earth and always ready to help when we are in need. The stipend and scholarship, being provided is very attractive which satiates our daily requirements with an extra bit of savings. Apart from all these, Taiwan is one country where everything is present and is available in the vicinity. Even after the studies, there are wonderful job opportunities in this country. It's really my pleasure to be pursuing my higher studies in Taiwan.

I chose to study in Taiwan for then I knew Taiwan as a dragon in Asia, a very competitive economy, with great infrastructures, not to mention its unparalleled "Formosan" look.

I chose Taiwan for it occurred to me as an amazingly great environment to study Mandarin while diving into the Taiwanese culture and integrating a very friendly people: And the higher education institutions are better equipped and are offering more revolutionary programs than the traditional curricula offered elsewhere.

As a young man I chose Taiwan for the "can do spirit" and the entrepreneurship values that were fostered, developed by the brave people and which are being passed on to the younger generations. My choice of Taiwan is a lifetime optimal choice.

Grade

2nd Year

Name of University in Taiwan

Taipei National University of the Arts

Upon my lengthy research comparing different universities in different countries, I stumbled upon the fact that Taiwan is a multifaceted country. Their traditions and culture are a mix of both ancestral and contemporary, cherishing the past while embracing the new. As I decided to pursue an arts related degree in Taiwan, it was especially important that environment I was to surround myself in was nurturing for creative minds, and so far into my experience of living in Taiwan it has proven right. Arts, culture, food and music all are well represented in this island nation.

All in all, Taiwan provides a safe and stimulating environment for anyone wanting to pursue education in this country. The people are friendly and warm. The excellent educational quality, superb public transportation and respect for all forms of culture are just some of the aspects that make Taiwan a great choice.

Name of University in Taiwan

Tamkang University

I chose Taiwan mainly because I observed that they were on the brink of global technological domination. Being technology savvy I was diving head first into a career technology related. In my country all forms of media showed me that Taiwan was slowly coming up in the world where technology was related. I finally seized the opportunity when a scholarship was presented to me to come here to study Mandarin Chinese. Upon arriving here, I got a 1st hand view of why Taiwan was considered a top contender in the world of technology. I have been very well pleased since my stay here. My pursued program, coupled with my stay in Taiwan, provides me with more than enough information and studies that I need to satisfy my technological cravings.

National Taipei University of Technology

The main reason that I want to study in Taiwan because I want to have a global view in technology and Taiwan is world-renown for its research in engineering and technology. Students come to Taiwan can have a good benefits of high-quality of education and a rich learning environment. Studying in Taiwan you can not only improves language proficiency such as English but also you can have an very good environment to learn and practice Chinese, it helps student to learn important skills and strengths for their career in the future. I am so lucky to have scholarship and studying in NTUT, where is a very famous and oldest school in Taiwan. Almost professors at NTUT, they have very strong background and experience in research and very good communication in English. Taiwan is multi-culture and democratic society so you will learn a different perspective to people, societies, countries and an opportunity to meet different people and share experience. I really enjoy this multi-culture society.

Taiwan is a free and democratic society that provides great opportunities for international students to get scholarships and study at its numerous outstanding colleges. Also, due to the increasingly competitive business world, Taiwan offers a great opportunity of learning Chinese and understanding its culture. Furthermore, thanks to Taiwan's strategic position I've got the chance to travel to other countries in Asia which have been a very fulfilling experience.

GIP-MBA

Grade

1

Name of University in Taiwan

Providence University

My name is Miguel Law Chu from Honduras. I came to Taiwan in the year 2005. I completed my bachelor degree in Chengchi University and I'm currently pursuing my MBA in Providence University. I would say that choosing to study at Providence was one of the best decisions I made in my life so far. Not only do I have the chance meet a lot people from different ethnics and cultural background but there's a unique competitive atmosphere that pushes you to learn many things.

In overall, I think my years living in Taiwan have been more than satisfactory. I considered this place as my second home. My mandarin has arrived to a point which is considered fluent because I speak it all the time. The people are surprisingly welcoming and always ready to lend a hand when you need one, the food offers an adventure in itself, and the places to travel are diverse. Traveling around Taiwan by bus or train is pretty easy and it can be super-fast especially the high speed trains it can hit speeds of 300 Km/h making the trip from Taipei to Kaohsiung in about 80 minutes. Taiwan is a cheap, affordable, comfortable place to live. This is especially true of the southern half of Taiwan where housing costs are less than half of Taipei, Taiwan's capital city to the north.

FASCINATING TAIWAN

Taiwan is a modern, free, democratic society whose people are hardworking, fun-loving, educated and friendly. While eagerly embracing the future, the people of Taiwan hold onto traditional values and ideals. The family, including ancestors, is of utmost importance; education and scholarship are held in high esteem. Traditional forms of writing, architecture and art are part of everyday life. Yes, in Taiwan the ancient and modern, traditional and new are seamlessly woven together, creating a fascinating, dynamic society like no other in the world.

HISTORY

The name "Taiwan," meaning "terraced bay," was first used in 1430 by Admiral Cheng Ho of the Ming court. In the 16th century, the Portuguese named the island "Ilha Formosa" meaning "Beautiful Island." The name Formosa was used until the end of WWII.

Situated between northern and southern Asia, Taiwan has long played a crucial role in trade and politics. Taiwan's location brought frequent invasions, but also provided the conditions needed for a modern, prosperous and democratic country.

GEOGRAPHY

Taiwan lies along the western edge of the Pacific Ocean, 193 km (120 miles) off the southeastern coast of mainland China. Taiwan has a land area of about 36,000 square km (14,400 square miles) and is nearly bisected by the Tropic of Cancer. The island is shaped somewhat like a sweet potato.

Taiwan has broad plains, rolling hills, and precipitous mountains that form the spine of the island. There are six peaks over 3,500m – the highest is Yu Shan at 3,952m – and more than 200 peaks over 3,000m. Swift rivers have carved steep gorges through the mountains. Taroko Gorge, with vertical rock walls hundreds of meters high, is a wonder of nature. Geothermal activity has produced many hot springs in mountains.

Due to the abundant rainfall and generally warm temperatures, vegetation grows rampantly in Taiwan, from lowland agricultural crops to all manner of plant life cloaking the hills and mountains. Due to its unique climate and geography, the flora and fauna of Taiwan are tremendously diverse, and many species are endemic to the island.

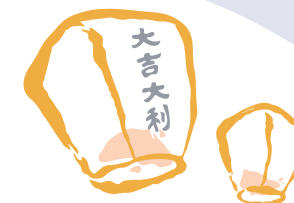

CLIMATE

In subtropical, northern Taiwan, the temperature during the cool, mild winters averages 18°C / 64°F. The average temperature rises to 31°C / 88°F during the hot, humid summers. Southern Taiwan has a tropical, marine climate with generally warm and relatively dry weather.

In the mountains, temperate conditions prevail. Snow may accumulate on some of the highest peaks, such as Yu Shan and Ho-Huan Shan. Rain may fall at any time, but the greatest amount usually falls from April to August. Typhoon season is from May to September.

CULTURE

The culture of Taiwan is a blend of modern and traditional, national and international, unique and universal. Due to Taiwan's complex political history, the influences of indigenous culture, Confucianism, Japan, and Western civilization all can be seen at the same time.

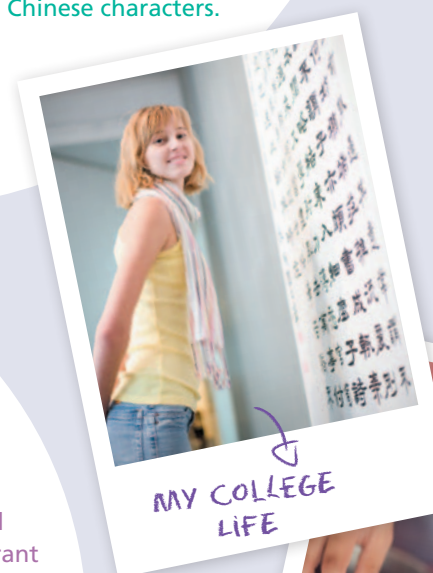

The Japanese occupation of Taiwan from 1895 to 1945 influenced language, culture, and architecture. Visitors can still find a Japanese-style mansion and hear old Japanese songs emanating from nearby taverns.

Taiwan's aboriginal culture is unique and has started to flourish since the Ami chant "Jubilant Drinking Song" was sampled in a song to promote the 1996 Olympics. However, the dominant culture in Taiwan is still Chinese. Immigrants from mainland China, especially those who arrived in 1949, after civil war, brought Confucianism and Chinese culture to Taiwan. The National Palace Museum has an outstanding collection of 650,000 pieces of ancient Chinese artifacts brought from the Forbidden City, making it a major attraction for visitors. Visitors also will see ornate temples and traditional Chinese characters.

CUISINE

In Taiwan, where it seems the people live to eat, it is said that there is a snack shop every three steps and a restaurant every five. Foods and dishes from around the world are available in Taiwan. However, Taiwan's native cuisine, which has gained worldwide attention, is unforgettable - try it just once and you will remember it forever. Memorable dishes include: Pearl Milk Tea, Danzai Noodles, Shrimp Pork Soup, Oyster Omelet, Meat Rice Tamales, Stinky Tofu, Taiwanese Meatballs, Coffin Sandwich, Veggie and Meat Wrap, Oyster Vermicelli, Steamed Sandwich, and Crushed Ice Dessert.

MY COLLEGE LIFE

Let's listen to international students traveling experiences in Taiwan!

Buddha Memorial Center

Tomas Juricek

Name of University in Taiwan
National Sun Yat-sen University

It does not matter if you are a Buddhist, Pastafarian or Kopimi. As long as you are curious about new ways of looking at things, Buddha Memorial Center (BMC) and Fo Guang Shan Monastery (FGS) have many to offer. Exploration is easy for most of the information provided is both in Chinese and English.

After arrival to the BMC, I suggest you visit the first pagoda on your left hand side and ask the staff to show you their video about the whole place. Brief history introduction will surely shed more light on your way towards new experience. You should not miss the 4D cinema inside the main pyramid ;)

After you get saturated by the BMC (or tourists) wait no more and walk to the FGS Monastery. Don't miss the dining hall of the Cloud Dwelling Building where many thousands of practitioners can eat their vegetarian meals at the same time. Go and see the Main Shrine and try to compare it to other shrines you saw in Thailand or India ;) Challenge accepted?

Don't be afraid to ask for further information and remember to talk less, listen more and keep smiling ;)

Northern Taiwan: Yehliu Geopark, Keelung, Jiuken

Robin Schaffer

Name of University in Taiwan
Ming Chuan University

To be reminded why Taiwan deserves the title of Formosa, sometimes you need to step outside these glamorous metropolises to truly experience the wonder of Taiwan. With a little bus fare, you can take bus at Taipei West Bus Station to embark on your adventure. In an hour or less you will arrive at Yehliu Geopark, a 1700 meter Cape lined with unique rock formations juxtaposed with a serene cerulean milieu. Among the various formations one must certainly see, the Queen's Head rock and the Candle rocks are the most interesting.

After a couple hours exploring the area, you can take a 30 minute bus ride to Keelung, visiting the famous seafood market before making the 40 minute journey to Jiuken – a village filled with inviting tea houses and beautiful anachronistic architecture. You can visit the Old Street where traditional food and snippets of culture will transport you through time. Soothing tea, pineapple cakes, plum pudding, as well as various pastries and souvenirs will definitely make the trip worth taking. In only one day, you can experience so much tradition and breathtaking exquisiteness – it really is refreshing to see the different faces of Taiwan.

STUDYING IN TAIWAN

- The Educational System of Taiwan
- Choosing a School & Applying
- Knowing the Schools
- International Programs
- Visa & Arrival Information

THE EDUCATIONAL SYSTEM OF TAIWAN

See chart below as the educational system of Taiwan

Overview

The people of Taiwan are very well educated, literacy is about 96%, and students from Taiwan score very high on international tests. These achievements are the product of cultural and societal values that hold education in high esteem, and the comprehensive educational system created to achieve Taiwan's goals of becoming a well-educated, economic and technological powerhouse on the world stage.

Two years of pre-school education, including kindergarten, are optional. However, most children in Taiwan attend at least one year of pre-school.

Formal schooling begins with 9 years of compulsory education, starting with 6 years of primary school followed by 3 years of junior high school.

NOTE

Most higher educational institutions in Taiwan set the academic year to begin from August to September of the following year. Every academic year has 2 semesters: the first semester (August-January) and the second semester (February-July). There are 2 holiday seasons: the winter vacation (January-February) and the summer vacation (July-August).

Compulsory Education

Since 1968, students in Taiwan have had 9 years of compulsory education, comprised of 6 years of elementary school and 3 years of junior high school. Students usually start first grade at age six. At the end of junior high school, students take another set of exams to qualify for different senior high and vocational schools.

Senior High & Vocational School

After graduation from junior high, there are two types of institutes for continuing students: senior high school and senior vocational school. Both take 3 years to complete.

Specialized Training

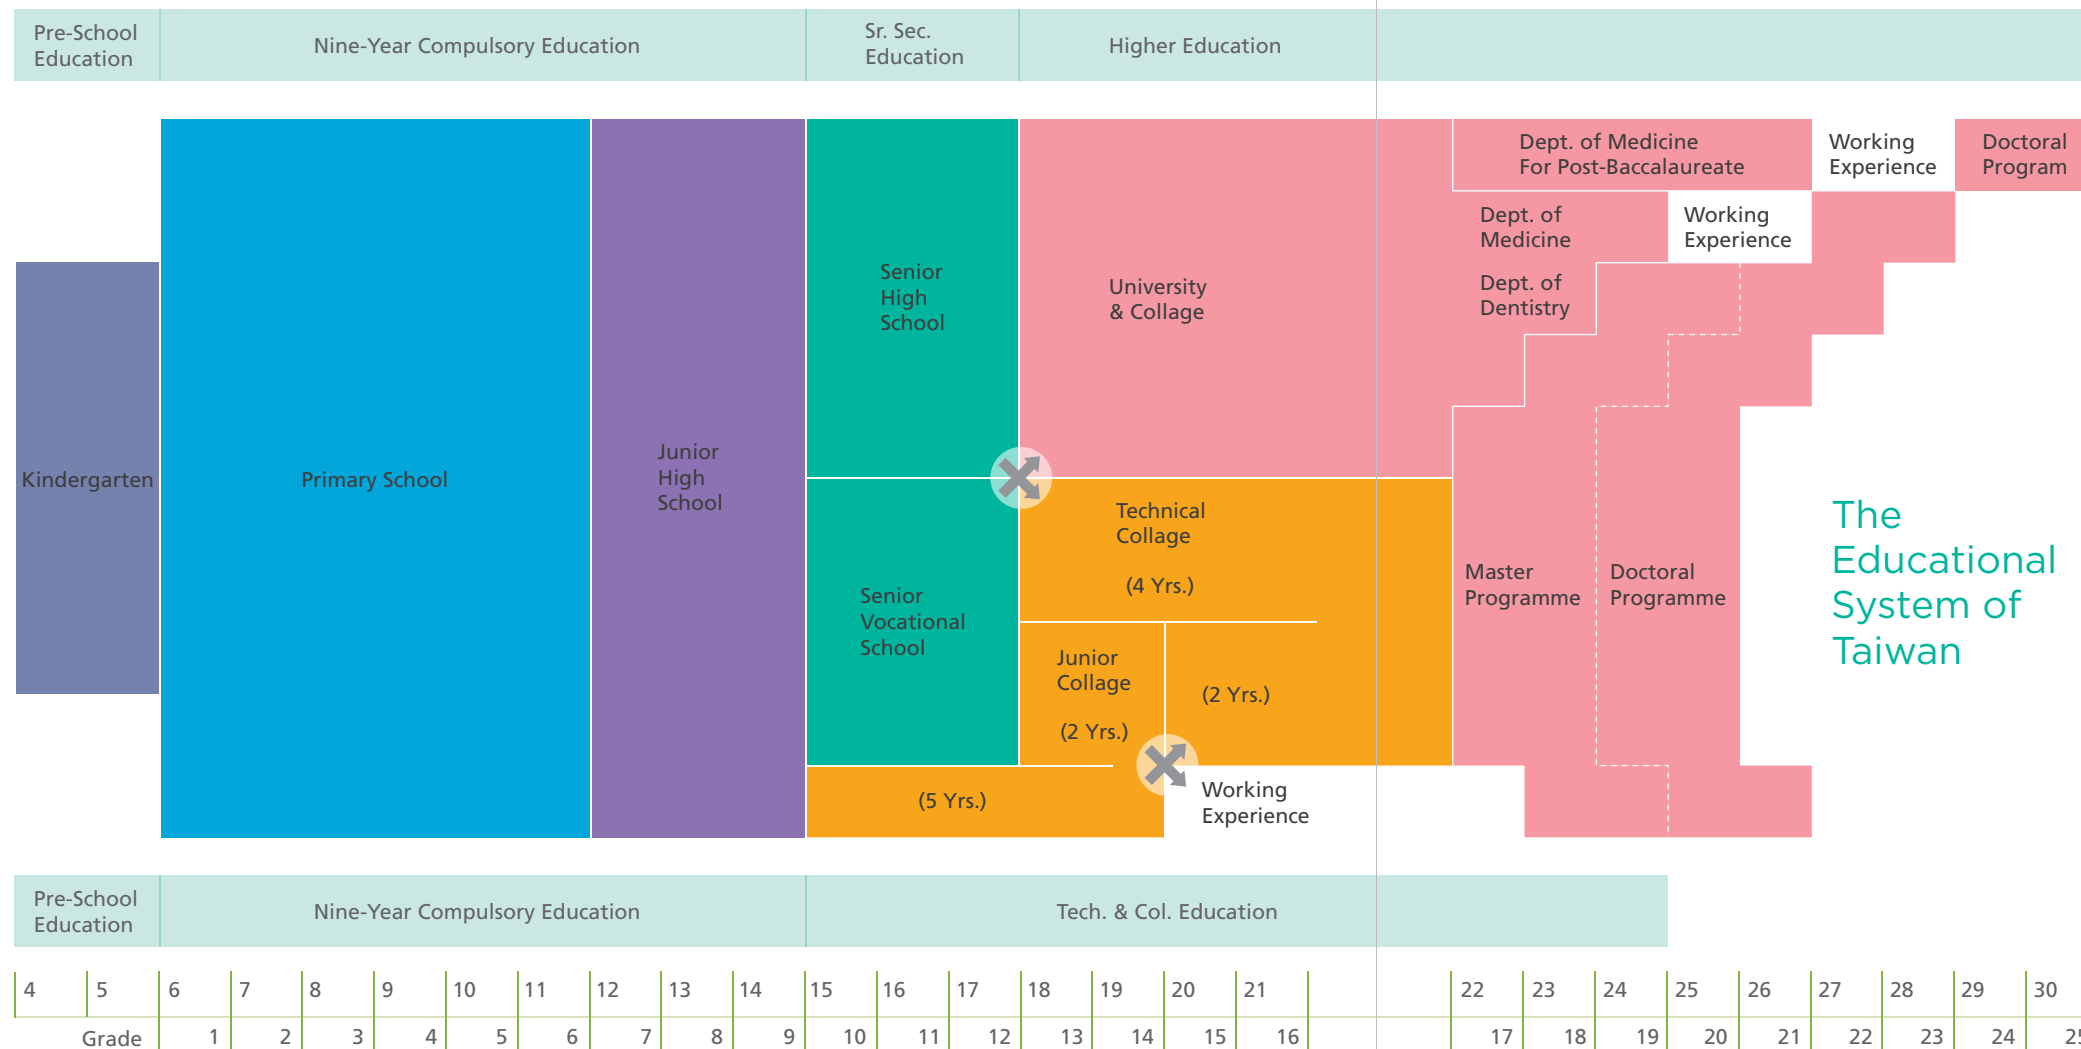

Specialized training beyond the secondary level is provided by 5-year junior colleges, which accept students directly from junior high schools and focus on applied sciences and technology.

Higher Education

The higher education system in Taiwan includes 2 and 5-year junior colleges, technical colleges, liberal arts colleges, 4-year universities, and graduate programs.

Most university undergraduate programs take 4 years to complete. Extensions of up to 2 years will be granted to students who are unable to fulfill their requirements within the designated time. Specialized undergraduate programs, such as dental school (6 years) and medical school (7 years), take longer to complete.

Universities and colleges in Taiwan offer a wide variety of master's and doctoral degree programs. Graduate programs leading to a master's degree take 2 to 4 years to complete, while doctoral degree programs take 2 to 7 years. If a student who enters graduate school as part of on-the-job training fails to finish the required coursework or complete a thesis, the student will be granted an extension.

CHOOSING A SCHOOL AND APPLYING

Choosing a School

A wide range of schools and universities welcome international applicants. Applicants can choose a school based on their personal interests and the courses offered. A list of universities and colleges, both public and private, can be found at the website "Study in Taiwan".

Tuition

Students who intend to study in Taiwan should note that tuition fees vary at different schools. The tuition fee at private universities is usually higher than at public universities. The tuition fee may also vary from program to program within a university. The following is a brief summary of tuition fees in 2013:

Public / Private

Field	Science, Engineering and Liberal arts
Period	Per semester
Tuition fee	Public NTD 25,000 – 30,000 (About USD 840 – 1,000)
	Private NTD 46,000 – 54,000 (About USD 1,540 – 1,800)

*(USD1 ≐ NTD30)

Procedure

- 1 Make sure you are eligible to apply as an international student
- 2 Make sure you've done research about programs of your interest
- 3 Make sure the program you intend to apply is open to international students
- 4 Make sure you are well aware of and meet all the requirements from individual schools
- 5 Make sure you fill in the application form correctly and have all the required documents
- 6 Make sure to send the application package in time
- 7 Make sure you've received an admission letter. You'll need it when applying for a visa and registering

Choose Your School and Course

Study in Taiwan Website
www.studyintaiwan.org

Ministry of Education, Taiwan

Choosing a Chinese Language Center

Taiwan is an ideal place for international students who want to learn Mandarin, the official language of Taiwan. In Taiwan, traditional characters are used, and learning them will allow students to fully appreciate Chinese language and to communicate, in writing, with people who speak other Chinese dialects.

See P.68~P.69 for the location and websites of Chinese Language Centers

Tuition

39 Chinese Language Centers in Taiwan provide various types of course, tuition fee also varies from every center. The following is a brief summary of tuition fees:

General Course

Total hrs	180 hrs or more
Tuition fee	NTD 25,000 – 65,000 (About USD 840 – 2,200)

Intensive Summer Course

Total hrs	80~240 hrs
Tuition fee	NTD 12,000 – 65,000 (About USD 400 – 2,200)

*(USD1 ≐ NTD30)

Procedure

- 1 Decide to which Chinese Language Center you would like to apply
- 2 Determine the cost of studying at the Chinese Language Center you are most interested in
- 3 Determine when applications are due and make sure the period of instruction fits your schedule
- 4 Complete your application
- 5 If you are accepted, you will receive a formal letter of admission

Application

Please note that each institution has its own requirement and standards to determine whether applicants are qualified for admission. Applicants found to be qualified through review or special screening test will be granted admission. Students shall show proof of medical and personal accident insurance or national health insurance at the time of registration.

See P.19 for the submission document

NOTE

Students who want to apply for undergraduate, graduate and doctoral program can submit their application all year round. The deadline for new semester submission varies from universities to universities, but it usually falls in March.

Students who want to apply for Chinese learning courses can submit their application all year round, but Chinese language centers only receive application within the year. There are usually four terms of courses: spring, summer fall and winter.

KNOWING THE SCHOOLS

Universities and Colleges

The curriculum at most universities focuses on academic studies and research, while universities of technology focus on practical and specific skills training. Depending upon the requirements of each school, students with a distinguished academic performance could apply for promotion to a higher level.

University undergraduate programs require four years of study; however, students who are unable to fulfill their requirements within the designated time, may be granted extensions, up to two years. Specialized undergraduate programs such as dentistry or medicine require six to seven years, including an internship period of one year.

Qualification for Admission

Graduation from senior secondary (high) school or equivalent

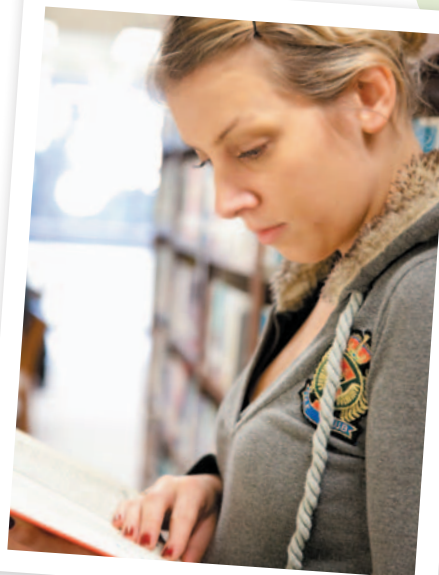

Documents for Submission

- Photocopies of the original diploma (If not in English or Chinese, student should give English or Chinese translations of the original diploma)
- Financial statement
- Statement of purpose
- Letters of recommendation
- Application fee
- Other documents as required by the universities and college

Qualification for Graduation and Completion

Earn at least 128 credits

Meet the friendly people in Taiwan!

MEET YOUR CLASSMATES!!

Graduate Schools

Students are awarded a master's degree upon completion of their postgraduate study. Master's programs usually require 2 to 4 years of study; and a doctorate program (Ph.D.) requires 2 to 7 years of study.

Qualification for Admission

Master's Program

- Graduation from undergraduate program or equivalent
- Pass the master's degree program entrance examination

Ph.D. Program

- Graduation from master's program or equivalent
- Pass the Ph.D. entrance examination

Documents for Submission

- Application forms
- Photocopies of the original diploma (If not in English or Chinese, student should give English or Chinese translations of the original diploma)
- Financial statement
- Statement of purpose
- Letters of recommendation
- Application fee
- Other documents as required by the universities and college

Qualification for Graduation and Completion

Master's Program

- Earn required credits, produce thesis and pass a final examination
- For master's degree programs in the arts, applied sciences and technology, the thesis may be replaced by an exhibition or performance plus a written or technical report

Ph.D. Program

- Earn required credits, pass the Ph.D. candidate qualification test, produce a dissertation, and pass the oral examination

Chinese Language Center

There are 39 Chinese Language Centers located at colleges and universities throughout Taiwan. Offering classes year-round, these learning centers provide a variety of courses for students of all levels of proficiency. The instruction and teaching materials are top-notch and are designed to help students achieve their language goals. Outside of class, students will have innumerable opportunities to practice reading Chinese characters and speaking Mandarin with the friendly citizens of Taiwan. Imagine being able to practice what you have just learned with native speakers on campus, in coffee shops, convenience stores or dance clubs! With its blend of tradition and modernity, Taiwan truly is an ideal place to learn Mandarin!

Documents for Submission

- A completed application form
- A copy of your passport
- An original copy of your personal financial statement, valid within the last 6 months. The requirements for this statement will be specified by the center
- Diploma/ admission letters (varies from center to center)
- Research proposal (varies from center to center)
- Two to four 1x1 inch photos (check the website of each learning center for details)
- Insurance certificate
- Application fee

INTERNATIONAL PROGRAMS

The list below shows the international programs offered by the universities which reviewed by FICHET and HEEACT (Higher Education Evaluation and Accreditation Council of Taiwan). Group A shows the programs that over 90% of the lessons are taught in English, and Group B shows the programs that 75%-90% of the lessons are taught in English. Programs in Group C offers 50%-74% English taught lessons, programs in Group D offers programs taught below 50% in English.

COME AND
EXPERIENCE LIFE!

VISA & ARRIVAL INFORMATION

Visa

Students applying from abroad, who have received formal letters of admission, should apply at local or the nearest R.O.C. embassy, consulate or representative agency for visas to enter Taiwan. Students may be issued a visitor or a resident visa, depending on the length of their study program. Students admitted to a degree program will need to apply for a resident visa. If you intend to stay for more than 6 months for study, you should apply for a resident visa.

Require Documents

You will need the following documents:

- One copy of completed application form with two passport-size, color photos taken within the last 6 months
- A passport valid for no less than 6 months and a copy of it. (There should be enough empty pages in the passport)
- School-issued enrollment certificate
- Proof of financial support, and other relevant documents
- Application fee

Further Information About Visas

Visitor Visa

Foreign nationals who hold valid passports or other legal travel documents, and who intend to stay in the Republic of China (Taiwan) for less than 6 months, may apply for a visitor visa. Students holding a visitor visa who wish to stay more than 6 months should apply to change to a resident visa at the Bureau of Consular Affairs, Ministry of Foreign Affairs (MOFA).

Resident Visa

Foreign nationals who hold valid passports or other legal travel documents, and who intend to stay in the Republic of China (Taiwan) for more than 6 months, may apply for a resident visa.

Visa Extension

Students who hold a visitor visa and wish to stay less than 6 months are not required to change their visa status. However, if they intend to stay beyond the visa expiration date, they do need to apply for visa extensions through the National Immigration Agency before their visa expires.

Alien Resident Certificate (ARC)

Resident Visa holders are required to apply for the Alien Resident Certificate and Re-entry Permit at the local office of The Immigration Agency within 15 days after their arrival. They may stay in the R.O.C. as long as the Alien Resident Certificate remains valid.

Required Documents

You will need the following document:

- A completed application form
- Passport with Resident Visa
- Student ID card or Enrollment Verification (original and copy). Overseas Chinese students who are first-time petitioners shall submit a notification of enrollment. They will be issued a 30-day ARC by the National Immigration Agency. To extend the ARC, a student ID or enrollment verification will be needed
- One passport-sized color photo taken in the past six months
- Student ID (original and copy)
- Application fee
- Health certificate/ within 3 months

ARRIVAL INFORMATION

There are two major international airports in Taiwan. They are Taiwan Taoyuan International Airport, in Taoyuan county (about 40km from Taipei city), and Kaohsiung International Airport, located in southern Taiwan. Most international flights land at Taiwan Taoyuan International Airport. From Taiwan Taoyuan International Airport, students can take long distance highway buses to major cities, such as Taipei, Taichung and Kaohsiung. From these cities, students can easily get a transfer to their schools by bus, metro, train or taxi. Taxis are also available at the airport.

Entry & Exit

Required Documents

The following documents are needed for visa issuance.

Entry

- A completed visitor visa/ resident visa application form
- A valid visitor visa/ resident visa
- A passport valid for at least six months
- A confirmed return air ticket or an air ticket and a visa for the next destination, and a confirmed seat reservation on the departure flight

Exit

- Each student is required to show a passport and Alien Resident Certificate to the Customs authorities
- Students should depart before their visa's expiration date

Re-entry

- Each student is required to show a passport and Alien Resident Certificate to Customs authorities
- Students are required to apply for a re-entry permit from the authorities before they leave Taiwan and to show it to Customs officials when they re-enter

NOTE
If your spouse and children are coming with you, please bring along a notarized marriage certificate and birth certificates for the application

SCHOLARSHIPS

Taiwan Scholarships

In 2004, four government agencies of Taiwan, the Ministry of Education (MOE), Ministry of Foreign Affairs (MOFA), Ministry of Economic Affairs (MOEA), and National Science Council of the Executive Yuan (NSC), jointly established the Taiwan Scholarship Program to encourage outstanding international students to undertake degree programs in Taiwan. Details about each of the Taiwan Scholarships are shown below. Some universities offer scholarships. Information about these can be obtained from each university's website.

Let's apply
for Taiwan
scholarships

Application

The application period is from February 1 to March 31, each year, unless individual Taiwan Representative Offices specify otherwise.

For application guidelines and forms, scholarship types and quotas, as well as information about the selection process and outcome announcements, applicants may contact a Taiwan Representative Office directly.

See P.64~P.65 for the contact information of the nearest embassy or representative office.

You will need the following documents:

- One copy of the completed application form
- One photocopy of applicant's passport or other nationality certificates
- One photocopy of the highest-level diploma and a complete grade transcript
- Supporting admission application materials
- Additional documents as specified by individual representative offices
- A photocopy of a certificate of the acceptable levels of English proficiency or Test of Chinese as Foreign Language (TOCFL), depending on the language of instruction in class

MEET YOUR FRIENDS
AFTER CLASS!!

The Taiwan International Graduate Program (TIGP) of Academia Sinica

The Taiwan International Graduate Program (TIGP) of Academia Sinica, Taiwan, provides full fellowship support for all fully-matriculated students for 3 years. The stipend is about NTD 32, 000 (approximately USD 1, 050) per month.

Application

All applications for enrollment are **due no later than 31 March**. Candidates may now apply online, or send all application materials to the TIGP admissions office. You will need the following documents:

- Bachelor and/or Master of Science degree
- English proficiency (TOEFL, or GEPT, or IELTS.)
- GRE General test (requirements vary by program)
- GRE Subject test (requirements vary by program)
- Academic transcript for coursework completed beyond the high school level
- Letters of recommendation
- Statement of purpose

Mandarin Language Enrichment Scholarship

To encourage international students and individuals to study Mandarin in Taiwan, the Ministry of Education established the Huayu Enrichment Scholarship Program in 2005. This provides study opportunities in Mandarin language and Taiwanese culture at university/college-affiliated Chinese language centers. A monthly stipend of NTD 25,000 (approximately USD 840) is offered to recipients.

Application

- The application period of Taiwan Scholarship and Huayu Enrichment Scholarship (HES) is from **February 1 to March 31** each year.
- In addition, some Chinese learning centers offer scholarships. Information about these can be obtained from each center's website.

Huayu Enrichment Scholarship (HES)

To encourage international students (Mainland China, Hong Kong, Macao SAR students are not eligible) to undertake short term research or Huayu courses in the Republic of China (Taiwan); in order to provide them with opportunities to increase their understanding of Taiwanese culture and society, and to promote mutual understanding and interactions between Taiwan and the international community, the MOE established the Ministry of Education Huayu Enrichment Scholarship (HES) Program in 2005.

CAMPUS DIARY

Let's listen to what international students do on campus!

from Thailand

Phavinee Koyphokaisawan

Degree student
Business Administration
Senior
Kainan University

After 3 years of studying in Taiwan, Taiwan has become my second home. The friendly people I met, the delicious cuisines that made me gain weight and the unpredictable weather kept my life here interesting. I have been enjoying learning Chinese and exchange my culture with my local friends. I have traveled to most of the places in Taiwan and my favorite places would be Danshui, Hualien and Kenting. Being the farthest destination in each corner made these places the best representations of Taiwan's beauty.

- 06:30 After I dressed up, I leave for school to do my part time job, which is cleaning classrooms. Wake up in the morning allows me to breath in the fresh clean air. Such a great start for my every day. After my job, I ate breakfast at the school cafeteria.
- 08:00 Part time job at the International Affairs
As a senior I have extra free time to do part-time jobs. Gaining more experience working and doing international affairs related work provide me opportunities to learn practical knowledge related to my major.
- 12:00 Lunch time!
Time to relax and chat with friends.
- 13:00 Chinese News Reading Class
Speaking skills and Reading Skills are totally two different aspects for foreigners to pursue; especially reading news paper in Chinese. It's a challenging class, where I get to learn uncountable new words everyday.
- 17:00 Library Time
Going to the library after class allows you to review what you have learned today and get yourself prepared for your next classes.
- 19:00 Get some Exercise
After a long day of studying and sitting, an hour of exercise, running on the treadmill or doing yoga, takes away the pressure and get you relax. Moreover, it keeps your body fit!
- 21:00 Reading and Gaining Extra knowledge
It is not true that you only learn when you are in class. You can learn and improve Chinese during your free time as well. After coming back to my dorm, I usually read books and study Chinese to gain new vocabularies of the day.
- 23:00 Bedtime

from
The Netherlands

Bunskoek, Raoul

Degree student
Political Science
Ph.D., first year
National Taiwan University

I graduated in Chinese studies at Leiden University in the Netherlands, and when I first got to Taiwan and started studying political science in Chinese, this was quite a change. In the beginning I understood about 20% of what the teachers were saying in class, luckily they had a lot of patience with me, and after one to two semesters I understood about 70-80%. Right now, after two full years of studying in Chinese, having finished writing my master thesis in Chinese, I like to believe I understand about 90%! It did take a while as well to get used to the studying environment, in the Netherlands it is common to go out often with classmates and professors alike and drink beers or other alcoholic beverages, here I noticed this hardly ever happened, however there are many other activities that can be done here, probably I'm living a lot healthier here!

- 07:50 Breakfast and then leave for work/school!
Shower, start my motorcycle and drive to school, on the way I usually buy and eat a piece of bread or a steamed bun.
- 09:00-12:00 Work!
I work at the Office of International Affairs at NTU, and when I get there the first thing I do is make a strong cup of coffee. After this I start translating EN-CH and CH-EN texts.
- 12:00-13:00 Lunch time
Usually have lunch, talk and laugh with some other assistants at the Office of International Affairs, a so-called "chicken-leg-rice" is amongst one of the favorite foods.
- 13:00-15:00 Research time or time to swim
In this time span I either read some books or essays, have a swim at the outdoor 50m swimming pool at NTU, or do both!
- 15:30-17:20 Chinese Political Thought
Since I'm majoring in political thought, I take a lot of philosophical political science classes, even though at first sight they might not be very practical, but I find a lot of inspiration in them about how to live my life better and create a better world in general.
- 18:00-19:00 Dinner time!
Eat some dinner with classmates around the College of Social Sciences of NTU (near Shandao Temple Station), discuss today's lecture and talk about important things in life.
- 19:00-22:00 NTU Library
I'm a night person so I love to study at night, the NTU library on the main campus is a great silent spot to study hard for a couple of hours.
- 22:00-00:00 If I still have some energy left I usually either go drive my motorcycle with some friends, drive my bicycle, or have a few beers.
- 00:45 Bedtime

LIVING IN TAIWAN

- Accomodations
- Living cost
- Services
- Job Opportunities

ACCOMMODATIONS

On-campus Accommodation

On-campus undergraduate dormitories are divided based on gender and are open to students all year-round. Typically, four to six students share a room. Usually, pets are not allowed. University students usually wear something casual to class. Coin operated Laundromats can be found inside dormitory buildings. At on-campus dining halls meals cost NTD 40-130 (USD 1-4). Food stalls, cafes and inexpensive restaurants are usually close to campus, typically within 15 minutes walking.

Some campuses have on-campus health centers, which provide medical assistance for minor ailments. Some schools have a post office, a bookstore and a bank on campus. The expenses are about NTD 6,000 to 10,000 (USD 200-330) per semester.

Off-campus Accommodation

If dormitories are unavailable or you prefer a different living arrangement, off-campus apartments, including studios and flats, are available. Most Chinese learning centers provide information about local rentals on the internet. Depending on the accommodation's type, quality and location, rent ranges from NTD 3,000 to 13,000 (USD 95-410) per month.

Living Cost

The Taiwan currency is the NTD. The 4 denominations of bills are NTD 2,000, NTD 1,000, NTD 500 and NTD 100 while the 6 denominations of coins are NTD 50, NTD 10, NTD 5, and NTD 1. Cash payment is common in Taiwan though many shops do accept credit cards. Checks are not normally used in Taiwan for payment of everyday expenses.

In addition to your tuition fees, your accommodation costs will be your biggest financial burden. It's worth doing research before you arrive on your accommodation options, and better to research the cost of things such as utilities (electricity, gas, water, telephone), public transportation, food and so on. The cost of all things may vary depending on the area you'll be living in.

NOTE

For further information about off-campus accommodation, please go to the Tsuei Ma-Ma Foundation website. www.tmm.org.tw

SERVICES

Bank Accounts

Most banks offer foreign currency exchange and bank services in NT dollars. International students can open bank accounts with their passports and ARC cards. Individual who wants to open an account without an ARC card needs to get a universal identification number at the local police office.

Postage

Chunghwa Post, the postal service of Taiwan, provides international and domestic mail services to the public. There are over a thousand branches, distributed all over the island, providing regular and express postal service. International students can apply for a postal box at the nearest branch. Students who receive Taiwan Scholarship need to open an account at a post office Chunghwa Post.

In addition, most convenience stores serve as pick up locations for international and domestic express services.

Insurance

International students with an Alien Resident Certificate (ARC) who have resided in Taiwan for 6 months must enroll in the National Health Insurance (NHI) program at a local administrative office. Before they are eligible for the NHI program, students can purchase their own insurance or participate in a temporary health insurance program offered by the international students' office at their educational institution. The insurance premium has to be paid monthly once registration is completed. The premium is NTD 8,988 (about USD 300) per year. The cost of NHI is included in tuition fee every semester. Once registered with the National Health Insurance, you will only need to pay 30% of the total medical bill.

International students, who enroll in the NHI program, should apply for the NHI IC card. Students can fill in the "NHI IC Card Application Form," and attach a photocopy of your identity document, mail or bring it in person to a nearby NHI branch office or liaison office. You will need the following documents: application form, passport, ARC, and two one-inch photos.

Job Opportunities

International students who have attended school in Taiwan for two semesters or a language program for one year, and who have an excellent academic record, can work in Taiwan when one of the following applies:

- Events of a serious nature have affected their financial ability to support themselves or continue their education, and the student can provide evidence of such circumstances
- An academic research institution at the student's school requires a foreign student to provide assistance in its work
- The student needs to take part in an off-campus internship related to his or her field of study

Start collecting the beautiful taiwanese postage stamps!

Further information about National Health Insurance (NHI)

It's a health insurance for all people in Taiwan since 1995. The main goals are to improve patients' access to health care by easing their financial burden and to make sure that no one would be forced into bankruptcy by a serious illness. www.nhi.gov.tw

Transportation

By Train

The railway network along the coastline is another economic option for traveling around Taiwan. There are four classes of passenger seats: Tze-chiang, Chu-kuang, Fu-hsing and economy. Traveling by train is recommended on public holidays because it can avoid the hustle and bustle of the long distance highway bus service. Advanced ticket reservations are recommended.

By Air

There are six domestic airlines providing services between major cities such as Taipei, Taichung, Tainan, Kaohsiung and Hualien. Prior reservations are always required.

By Taiwan High Speed Rail (THSR)

If you would like to save time, THSR is another choice. While traveling from Taipei to Kaohsiung takes 5 hours by train and 6 hours by car, the THSR takes only 1.5 hours. Advanced reservations are recommended.

By Motorcycle / Scooter & Bicycle

Motorcycles and scooters are very popular means of transportation. Most universities provide motorcycle/scooter parking around campus for students. Bicycles are widely used within campuses. Bicycle racks can be found throughout campuses.

By Highway Bus

Long distance highway bus services provided by private transportation companies are very popular. They have an extensive network and a frequent service schedule. Tickets are usually competitively priced and some bus companies even provide 24 hour service.

By Passenger Car

In Taiwan, cars are driven on the right. Students with international driver licenses may drive in Taiwan. However, driving is not recommended for those who are unfamiliar with the unique road and traffic conditions in Taiwan. Traffic is heavy and car drivers must watch out for slow-moving pedestrians and bicyclists, fast-moving motorcycles and scooters, as well as other cars, buses and trucks. Drivers have to be extra cautious. International or foreign driver license holders can apply for ROC driver licenses at the local Motor Vehicles Office.

By Metro / Subway

In Taipei and Kaohsiung, the metro system (MRT) provides convenient and comfortable transportation. There are ten major routes in Taipei and two major routes in Kaohsiung, covering different parts of the two cities. Metro fares range from NTD 20-65 (USD 0.6-2).

By Bus & Taxi

Each major city has its own bus system. Fares are inexpensive and service is frequent. Taxi fares start at NTD 70 (USD 2.3) and increase with the time and distance traveled. It is a good idea to have the name of your hotel or address written in Chinese when you travel by taxi.

HOW CONVENIENT!!

CAMPUS DIARY

Let's listen to what international students do on campus!

from Indonesia

Gemita Ria The

Degree student
MBA
Second Year Graduate Student
National Taiwan University of Science and Technology

It has been one year since I came to Taiwan to pursue my MBA degree in NTUST. I have met a lot of foreigners and also Taiwanese students in my class. Having the opportunities to work and discuss with them in various groups is a great experience for me. Moreover, in NTUST, I also have the opportunity to introduce Indonesian culture to them. I am very grateful that I had made a decision to come to Taiwan because in addition to study, I could enjoy beautiful sceneries and interesting places in here.

- 08:30** Take a bath, breakfast, and then go to the class
I don't really take breakfast but usually I will have a small egg tart before heading to class.
- 09:30** Morning Classes
I take 17 credits in a total of 5 classes. I have classes at this hour only on Thursday and Friday. On Thursday, I have Managerial Economics class and on Friday, I have Technology Marketing class. Those are very interesting lectures.
- 12:30** Lunch time
I usually eat in the campus cafeteria with my friends. Only go eat outside if the cafeterias are too full or I simply got bored with the food.
- 13:30** Afternoon Classes
I have classes at this hour on Monday and Tuesday. I attend Product Design and Development class on Monday while on Tuesday, I have Information System and Management class. These two courses use a lot of Harvard Business cases and have a lot of presentations and discussions in the class.
- 17:30** Dinner time
Either in the campus cafeteria or go eat outside with my friends.
- 18:30** Evening Class
I have class at this hour only on Friday, which is Turbulence Management class.
- 21:30** Organization meetings or Homework
At this hour, I often have meetings for some organizations I am involved in. If I don't, then I usually spend my time to do homework.
- 01:30** Bedtime
Get a good rest to refresh for the next day.

from Belize

Efrain Ramiro Uh

Degree student
International Health and Nursing Administration
Undergraduate Program
National Taipei University of Nursing and Health Sciences

My first thoughts after getting off the plane at Taoyuan International Airport, back in September. What was I thinking when I decided to leave the world that was known to me for a place where most people could not even identify with me? Taiwan? Was I really ready for what was coming my way? Either way, I was in Taiwan and in times when you do not really know what to do, you do what you can. In the end, I got what I was looking for and am now ready yet reluctant to leave this beautiful country with a more genuine attitude on life and living. I have gained a lot of insight and think that I have progressively changed by taking my time and savoring moments as well as enjoying a little Taiwanese "Chao Fan" now and then. Coming to Taiwan for four years is an experience I won't forget. This month has been filled with activities, and more importantly people, that will stay with me forever.

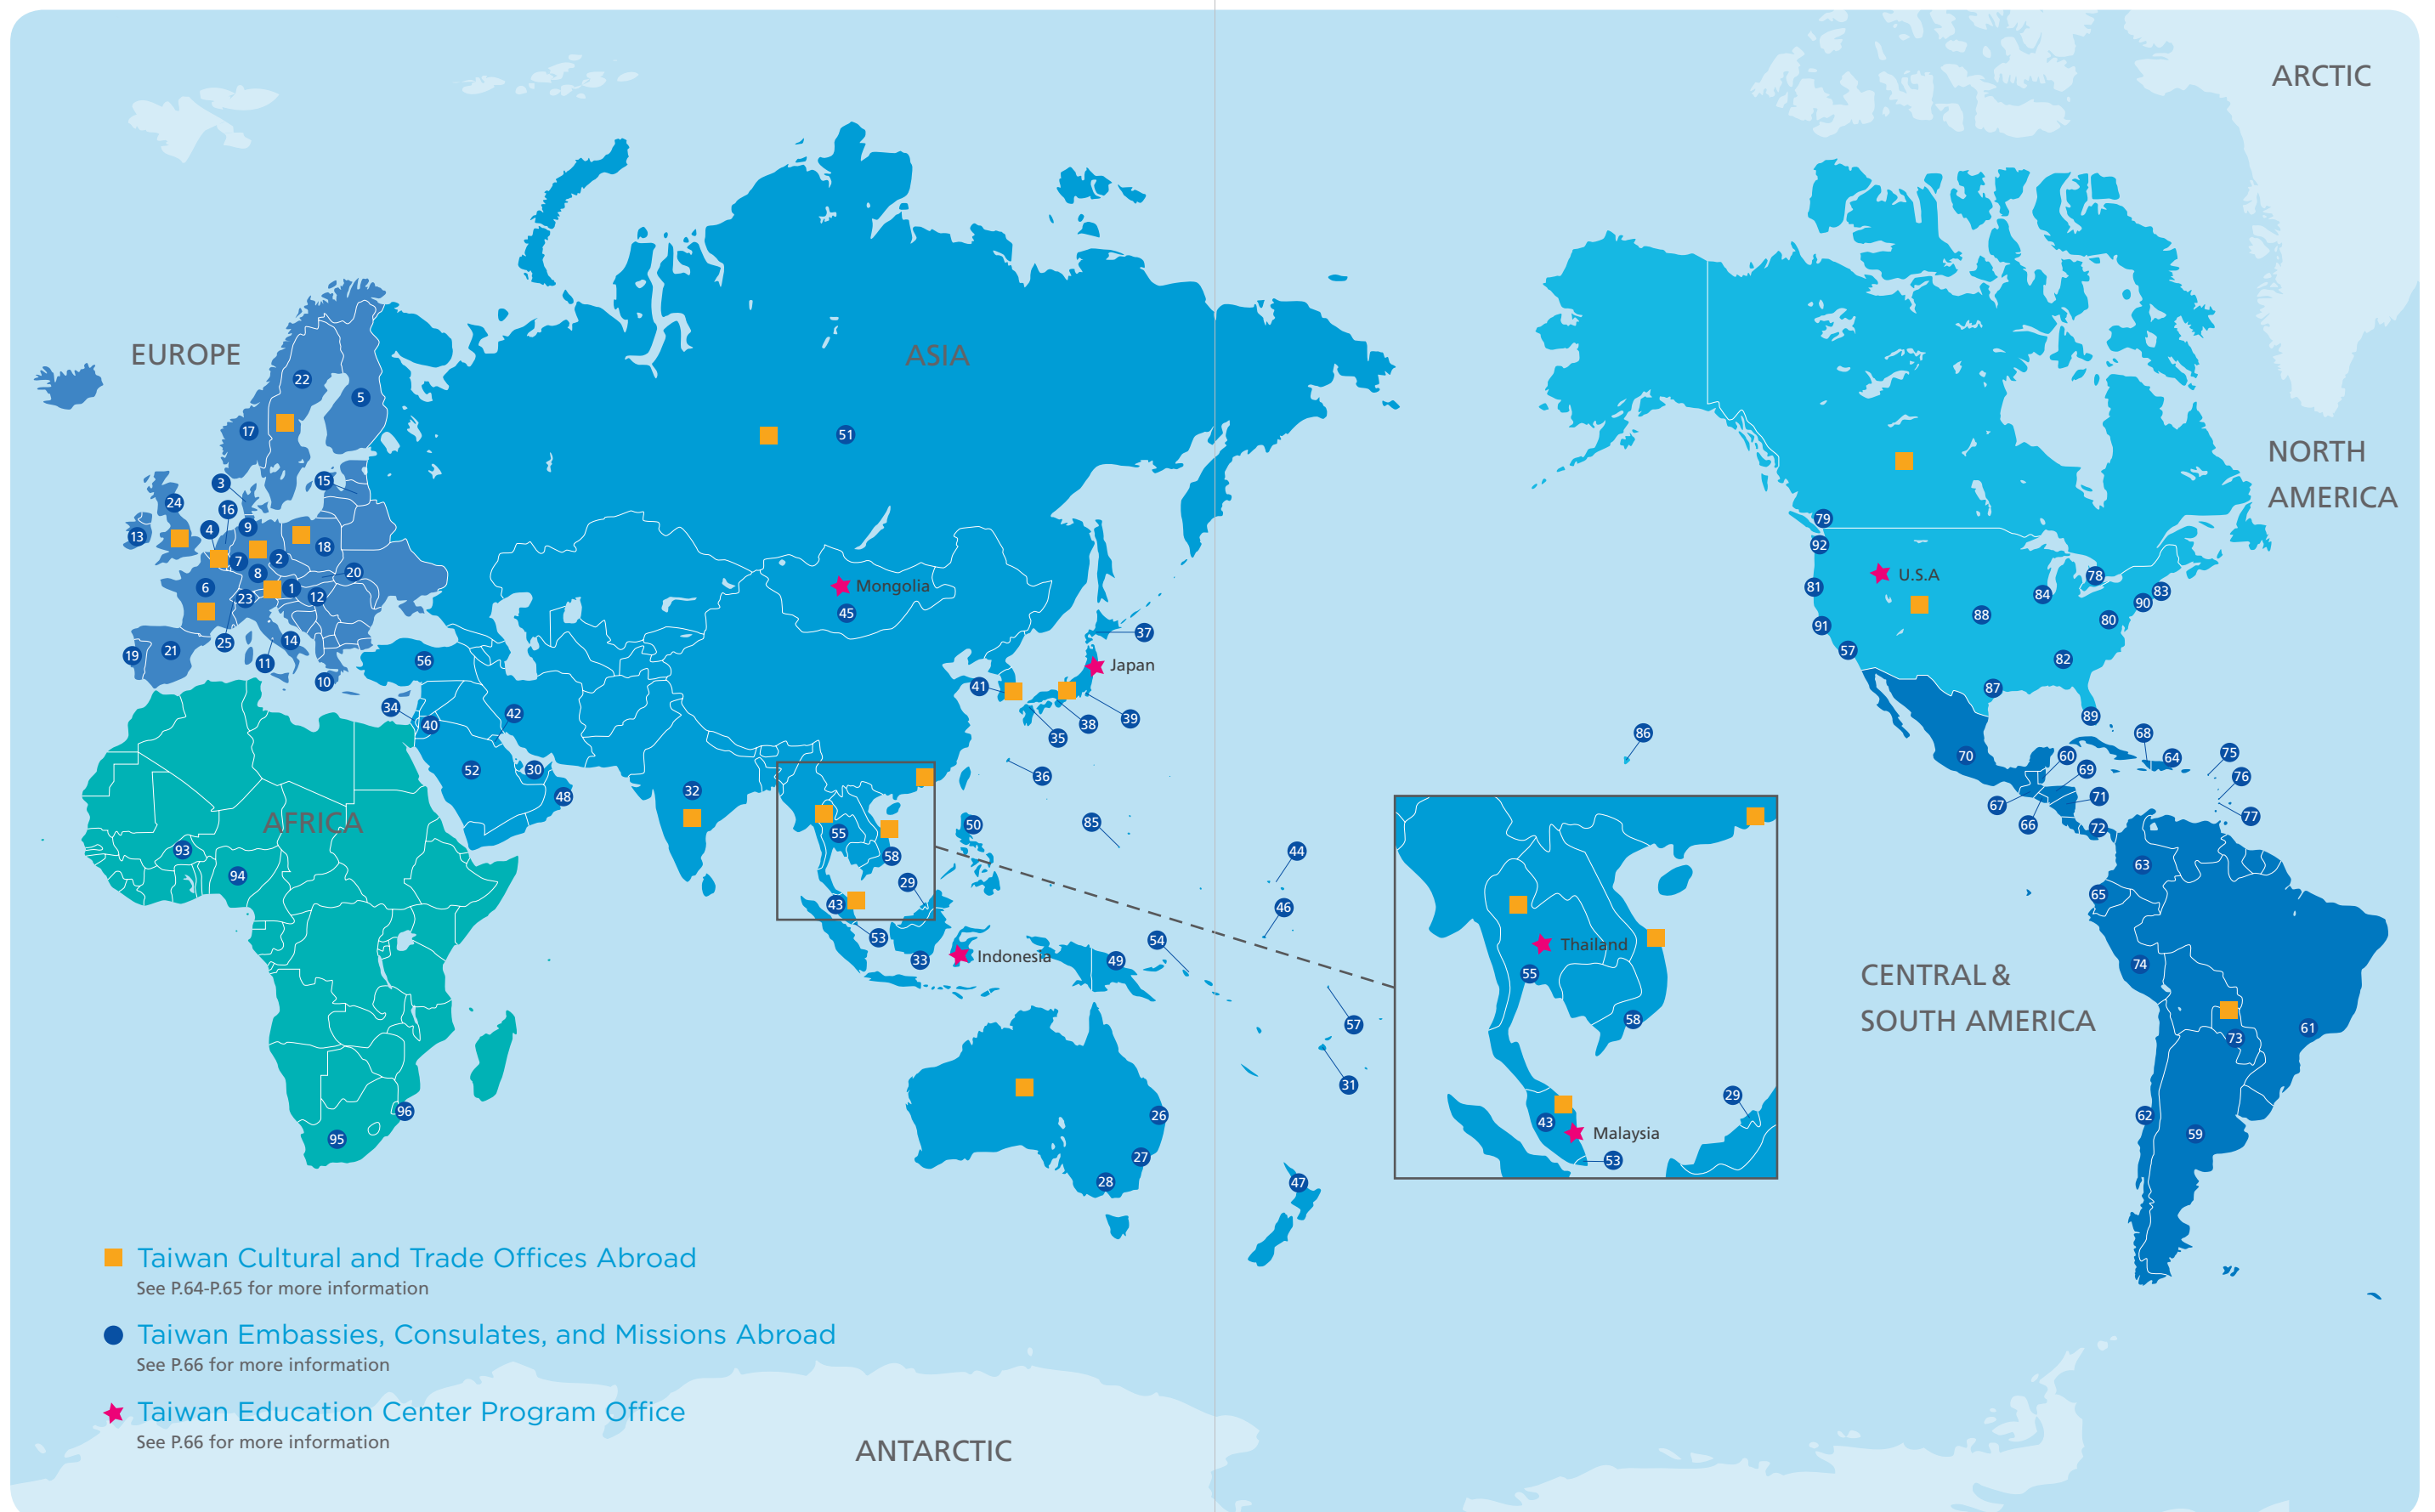

- TIME FOR BREAKFAST!**
- 07:30** Prepare and have breakfast
- 08:00–12:00** Chinese Class
Mandarin is notoriously difficult to learn. The language is tonal, and fluency requires mastering thousands of characters so I need to focus and concentrate.
- 12:00–13:30** Lunch Break
I have lunch and mingle with friends.
- 13:40–17:30** Chemistry Class
Reading about science is interesting, but seeing it in action is fun. And CHEMISTRY is the science that is the most fun of all. It has color, light, bubbles, fire, explosions, and many other kinds of excitement. Chemistry offers a varied menu of interesting topics, most of them relevant to everyday life.
- 17:30–20:00** Do assignments and review class notes
- 20:00** Have Dinner
- 21:00–22:00** Listen to music and surf the internet/
chat with friends
- 22:30** Take a bathe and go to sleep

TEST OF CHINESE AS A FOREIGN LANGUAGE (TOCFL)

Organization Introduction

The Steering Committee for the Test Of Proficiency-Huayu (SC-TOP) was established in November 2005 under the direction of the Ministry of Education of R.O.C. Originally "Chinese Language Testing Center" and renamed in January 2007, the Committee aims to develop and promote an effective Chinese assessment system, mainly the Test of Chinese as a Foreign Language (TOCFL), for Chinese learners worldwide to assess their Chinese proficiency.

Test Introduction

The Test of Chinese as a Foreign Language (TOCFL) is a standardized language proficiency test developed for non-native speakers of Chinese. It is the result of a joint project of the Mandarin Training Center, the Graduate Institute of Teaching Chinese as a Second Language, and the Psychological Testing Center of National Taiwan Normal University. The research project started in August 2001, and the tests started to be conducted in 2003. So far, it has served test takers from over 60 countries. The new version of TOCFL is developed since 2008, to become available in 2013.

The new version of the TOCFL has three proficiency bands: Band A, Band B, and Band C. Each of the bands has two levels. Therefore, there are a total of six levels: Levels 1 to 6. The items on the test of each level are 50 multiple choice items, to be answered in 60 minutes. Test takers can choose the test levels best suited to them based on their Chinese language proficiency and learning background.

Band A

Learning Hours (in Taiwan)	120-360 hours
Learning Hours (in other area)	240-720 hours
Vocabulary Base	500 ~ 1,000 words

Band B

Learning Hours (in Taiwan)	360-960 hours
Learning Hours (in other area)	720-1920 hours
Vocabulary Base	2,500 ~ 5,000 words

Band C

Learning Hours (in Taiwan)	More than 960 hours
Learning Hours (in other area)	More than 1,920 hours
Vocabulary Base	8,000 words

Note: The total Chinese course hours required for overseas Chinese learners need to be doubled.

TOCFL Testing in Taiwan

2014 TOCFL schedule
www.sc-top.org.tw/english/registration.php
Registration
ap1.sc-top.org.tw/Web/Tester/Login.do

Target Test Taker

The TOCFL is designed for non-native speakers of Chinese. Those who wish to know about their level of Chinese proficiency, or those who want to study, work or do business in Chinese speaking countries are welcome to take the test.

Test Content

The authentic materials used in TOCFL are extracted from materials in daily life, such as advertisements, public announcements, notices, letters, memos, time schedules, and weather broadcasts. In addition, these diversified texts are derived from a variety of fields, including literature, science, art, geography, and history.

Test Format

The content of the test in general focuses on everyday speech incorporated in various situations.

Band A

TOCFL Listening Band A is for beginning learners of Chinese. The content is mainly on topics of daily life uses, such as travel, transportation, medical care, jobs, etc. The content is practical and also interesting, without the seriousness in traditional tests. There are 50 multiple-choice items arranged in three sections: Responding to Pictures, Q&A Comprehension, and Dialogue Comprehension. Each test item comes with three options. The time for the test is around 60 minutes; TOCFL Reading Band A is for beginning learners of Chinese. The content is mainly on topics of daily life uses, such as travel, transportation, medical care, jobs, etc. The content is practical and also interesting, without the seriousness in traditional tests. There are 50 items arranged in four sections: Sentence Comprehension, Picture Description, Gap Filling, and Paragraph Completion. The time for the test is 60 minutes.

Band B

TOCFL Listening Band B has a total of 50 multiple-choice items arranged in two sections: Conversation and Monologue. Each test item comes with four options. The time for the test is around 60 minutes; TOCFL Reading Band B has a total of 50 multiple-choice items arranged in two sections: Gap Filling and Reading Comprehension. Each test item comes with four options. The time for the test is 60 minutes.

Band C

TOCFL Listening Band C has a total of 50 multiple-choice items arranged in two sections: Conversation and Monologue. Each test item comes with four options. The time for the test is around 60 minutes; TOCFL Reading Band C has a total of 50 multiple-choice items arranged in two sections: Gap Filling and Reading Comprehension. Each test item comes with four options. The time for the test is 60 minutes.

Purpose of the TOCFL

TOCFL testing takers who passed the requirement of TOCFL will receive. The certificate can serve as a Chinese proficiency credential for:

- Applying for the "Taiwan Scholarship"
- Applying for academic programs at colleges or universities in Taiwan.
- Serving as a reference of Chinese subject proficiency for University Entrance Committee for Overseas Chinese Students.
- Serving as a job-required proof of Chinese language proficiency.

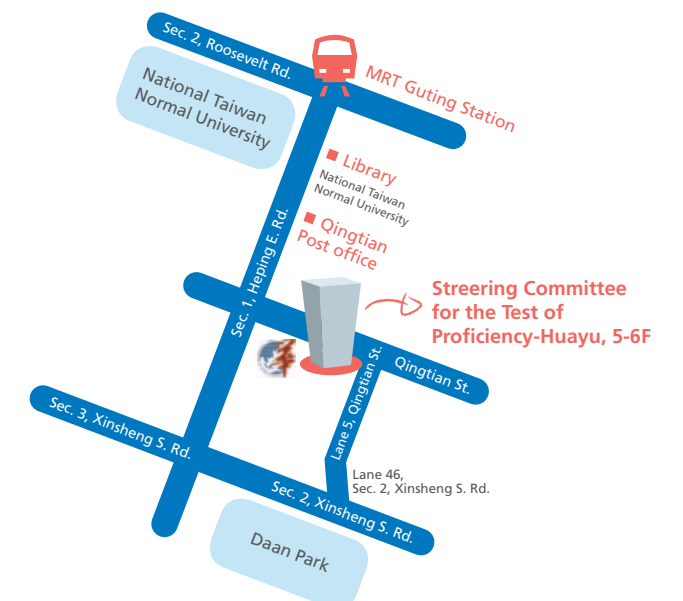

The certificate of TOCFL can be used as an official document when applying for admission to undergraduate and graduate programs in Taiwan. Also, many international businesses such as LG, adopt TOCFL as reference for their employee dispatch programs in Taiwan.

TOCFL Test Overseas

To meet the demand of numerous international Chinese learners, the SC-TOP has started to provide overseas test services since 2006. Candidates can now choose to take the TOP test in Japan, Korea, Thailand, Vietnam, Indonesia, Malaysia, U.S.A., Canada, Paraguay, U.K., France, Russia, Poland, and Australia etc. Also, the SC-TOP plans to increase test locations annually. For more information, please visit the website www.sc-top.org.tw.

INTERNATIONAL STUDENTS IN TAIWAN (STATISTICS)

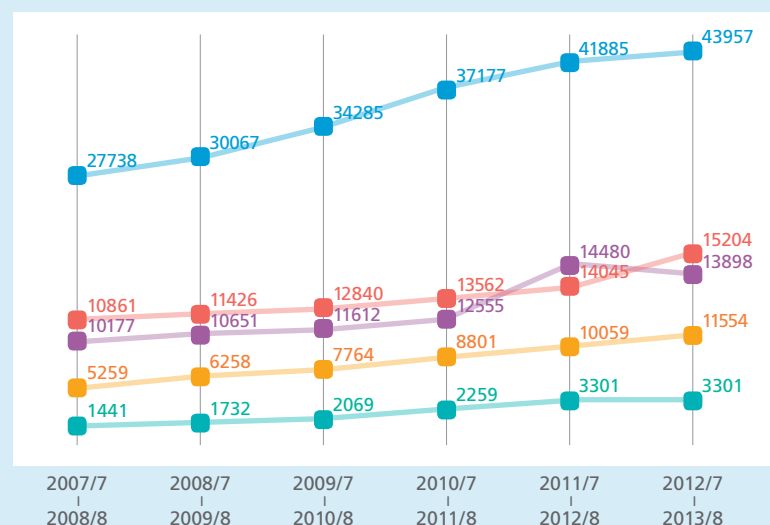

Number of Higher Education Institutions in Taiwan (2012/7-2013/8)

Taiwan has 162 institutions of higher education. Nearly 70% are universities and the rest are classified as colleges.

- Universities in Taiwan (120) 74%
- Colleges in Taiwan (42) 26%

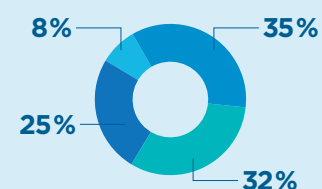

Growth of International Students in Taiwan (2012/7-2013/8)

The number of international students in Taiwan has increased more than 10 thousand since 2007. While the largest number of students is overseas students, the greatest increase (28%) has been in the number of international students earning degrees. Interestingly, nearly 35% of the international students earned master's degrees.

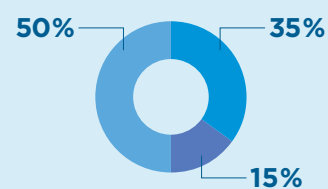

- Total Number
